

Name _____

Date _____

Faces, corners and edges

Three things you can count on a solid shape.
The dotted lines are the edges you cannot see from the front.

A face is a flat side.

A cube has 6 faces.

A corner is where edges meet.

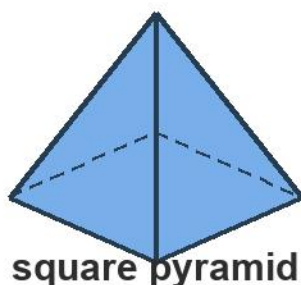

A cube has 8 corners.

An edge is where two faces meet.

A cube has 12 edges.

Count the dotted edges too. They are really there, just hidden.

Now you try

square pyramid

faces

answer: 5

corners

answer: 5

edges

answer: 8
