

Name _____

Date _____

The four seasons

A year has four seasons. They come in the same order.

**spring**

It gets warm. Plants grow.

**summer**

It is hot. The days are long.

**fall**

Leaves turn red and drop.

**winter**

It is cold. Snow can fall.

spring > summer > fall > winter > spring again

Fall is also called autumn.

Look out of the window. Which season is it right now?

Watch one tree all year and see how it changes.
