

Name _____

Date _____

Counting by 3s and 4s

Skip counting means jumping the same amount each time.
You already know 2s, 5s and 10s. These are the next ones.

count by 3

3

6

9

12

15

18

21

24

count by 4

4

8

12

16

20

24

28

32

1. Start at the first number.
2. Add the same amount to get the next one.
3. If a box is empty, look at the number before it.

You can also work backwards: take the amount off the number after it.

Now you try - count by 3

3

6

12

18

24

answers: 9, 15, 21
