

Name _____

Date _____

Auditory Memory

Listening games: hear it, hold it, say it back.

Listen and Repeat: Numbers

Pages 1, 4, 7

2 to 5 numbers

Listen and Repeat: Words

Pages 2, 5, 8

2 to 5 words

Listen and Point

Pages 3, 6, 9, 12

2 to 5 pictures

Say It Backward: Numbers

Pages 10, 11

2 to 4 numbers

Say one item per second, in an even voice.
Say each line only once, then let the child answer.
Do not group numbers like a phone number (35 - 82).
A line is right only if every item is in the right order.
For every line the child gets right, the child colors a star.
Start with the short lines. 3 or more right? Try the long lines.
If you have any worry about the child's hearing, check that first.
This is practice, not a test. It cannot diagnose a listening problem.
